

## AirJection® Irrigation System Design Questionnaire

---

1. Tape run length (bed length):
  
2. Number of lines per bed:
  
3. Tape Specifications
  - a. Manufacturer:
  
  - b. Model number:
  
  - c. Flow rate: \_\_\_\_\_ gpm/100 feet or \_\_\_\_\_ gph/emitter (Lpm/100 meters or Lph/emitter)
  
  - d. Emitter spacing:
  
  - e. Tape operating pressure at head end:
  
4. Irrigation Layout
  - a. Number of tape lines per control valve:
  
  - b. Type of distribution/submain piping (CHECK ONE)  

lay flat	oval hose	PVC	aluminum	other
----------	-----------	-----	----------	-------
  
  - c. Water pressure available in the field:
