

AirJection® Irrigation System Design Questionnaire

1. Tape run length (bed length):

2. Number of lines per bed:

3. Tape Specifications
 - a. Manufacturer:

 - b. Model number:

 - c. Flow rate: _____ gpm/100 feet or _____ gph/emitter (Lpm/100 meters or Lph/emitter)

 - d. Emitter spacing:

 - e. Tape operating pressure at head end:

4. Irrigation Layout
 - a. Number of tape lines per control valve:

 - b. Type of distribution/submain piping (CHECK ONE)

lay flat oval hose PVC aluminum other

 - c. Water pressure available in the field:
