## **Mazzei Injector Company, LLC and MISCOwater Join Forces**

**BAKERSFIELD, Calif. (May 16, 2017)** —Mazzei Injector Company is pleased to announce that MISCOwater, a leading Manufacturers' Representative firm which provides process and equipment solutions for water and wastewater treatment, now has exclusive rights to sell Mazzei systems to the municipal water and wastewater markets in California, Arizona, Colorado, New Mexico and Nevada. MISCOwater understands that Mazzei, a manufacturer of innovative injection systems and fluid processing solutions, makes aeration and ozonation easier, more efficient, less expensive and more reliable.

"Mazzei's exceptional reputation and technology—in addition to the fact that they are continuously analyzing and optimizing their products through the use of multiphase flow modeling—make us thrilled to be adding Mazzei to our business line," says Mike Tooley, CEO of MISCOwater.

And Jim Lauria, VP of sales and marketing for Mazzei, feels the same way. "MISCOwater and Mazzei are a perfect fit—both stress the importance of high quality systems and superior service. We are looking forward to a long and productive partnership."
