Mazzei Injector Company, LLC and Vessco, Inc Team Up

BAKERSFIELD, Calif. (August 7, 2017) —Mazzei Injector Company is pleased to announce that Vessco, Inc, a leading Manufacturers' Representative firm in the Upper Midwest, now has exclusive rights to sell Mazzei systems to the municipal water and wastewater markets in North Dakota, South Dakota, Nebraska, Iowa, Minnesota and part of Wisconsin. In today's environment, there is a strong demand for environmental preservation and high quality standards for water, wastewater, and process water. Together, Mazzei and Vessco will be able to provide the turnkey solutions that are needed to meet those needs.

"We represent only the best water treatment equipment available, which explains why we are so thrilled to be adding Mazzei to our business line," says Brian DeWolfe, President of Vessco. "Mazzei has an exceptional reputation and their technology is unsurpassed. The fact that Mazzei is continuously analyzing and optimizing their products through the use of multiphase flow modeling, makes us confident that the high quality we demand will always be met."

And Jim Lauria, VP of sales and marketing for Mazzei, feels the partnership is a perfect fit too. "Both Vessco and Mazzei strive to deliver the highest level of quality and service to our customers... ensuring that cost-effective and reliable long-term solutions are provided to meet their water treatment challenges. We are looking forward to a long and productive partnership."
